LinkedIn GitHub

Motivated Full Stack Developer with a solid foundation in Java, C++, C#, SQL, HTML, CSS, and JavaScript. Skilled in frameworks like Spring Boot, React.js, and ASP.NET Core, with hands-on experience in MySQL and basic knowledge of MongoDB. Proven ability to deliver real-world solutions through projects like the Atoms Unified Management Platform and an Online Examination System. Holding a BTech in Food Technology and a PG-DAC certification, I also gained valuable experience in my internship at Royal Food Stuffs Pvt. Ltd. I'm eager to contribute to dynamic environments while continuously learning new technologies.

.Experience

Intern
Royal FoodStuffs Pvt.Ltd.
11/2022 - 03/2023

- Gained hands-on experience in **processing** and **packaging** of products.
- Ensured adherence to **safety** and **quality standards** during production.
- Assisted in **internal audits**, focusing on compliance and operational efficiency.
- Supported the **dispatching** process to ensure timely distribution of products.
- Participated in **quality control** activities to maintain product excellence..

Technical Skills

- **Programming Languages:** C++, Java, C#, SQL, HTML, CSS, JavaScript
- **Frameworks:** Spring, Spring MVC, Spring Boot, React.js, ASP.NET Core
- **Databases:** MySQL, MSSQL
- **Development Tools:** Eclipse IDE, Visual Studio Code, Visual Studio, MySQL Workbench, SQL Server Management Studio, Spring Tool Suite
- **Version Control:** Git, GitHub
- **Testing:** Manual Testing, Selenium (Java), Postman
- **SDLC & Methodologies:** Agile (Scrum)
- **DevOps:** DevOps Practices, Docker (Containerization, Image Building)
- **Skills:** Troubleshooting, Debugging, Problem Solving, Analytical Thinking, Communication, Collaboration

---

Education

PG-Diploma Development in Advance Computing(PG-DAC)
C-DAC ACTS,Pune
March 2024 - Aug 2024, Percentage:50.34%

B-Tech Food Technology
Dadasaheb Mokashi College of Food Technology,Rajmachi,Karad
2019 - 2023, CGPA: 8.10

HSC
Adarsh Vidyaniketan and Jr.college, Minche
2017-2019, Percentage: 57.23%

Projects

1. **Atoms: Unified Management Platform**

   - **Technologies:** HTML,CSS ,JavaScript ,ReactJS with Vite, Material UI, Springboot , Spring Security, Hibernate, MySQL,AWS Cloud
   - **Description:** Atoms is a Unified Management Platform integrating Project Management and Examination systems. The Online Examination System allows easy creation, management, and assessment of quizzes with immediate feedback. The Project Management System supports project creation, collaboration, roadblock resolution, and a comment system for teamwork. The platform excels in integration, scalability, and security, offering a complete solution for diverse needs.
   - **Repository:**https://github.com/CDAC-Project-Atoms-Unified_Management_Platform

2. **Online Examination System**

   - **Technologies:** Html,CSS,Bootstrap,Razor Syntax,C#,ASP.NET Core MVC,MySQL
   - **Description:** The Online Examination System is a web application with a responsive frontend built using HTML and CSS, and a scalable backend developed with ASP.NET MVC. It securely manages exam data, including questions and performance, simplifying the remote assessment process. Future plans include integrating AI-powered proctoring to enhance exam integrity.
